PROFILE SUMMARY

Frontend Developer and UI Designer with 5+ years of experience designing and building responsive, user-friendly, high-performance web applications. Strong expertise in HTML, CSS, JavaScript, Angular, React, and PHP-based CMS development, with a track record of delivering scalable and maintainable solutions. Experienced in building custom systems including HRMS and Property Management platforms, with dynamic PDF generation using DOMPDF. Skilled at translating business requirements into effective frontend and CMS solutions while following UI/UX best practices, WCAG accessibility standards, and performance optimization techniques.

WORK EXPERIENCE

ReliantSurveyorsLLP | Sector 44, Gurugram, Haryana **Sep 2024 – Present**
Senior Frontend Developer

- Designed and implemented dynamic user-facing interfaces aligned with project goals; built reusable components and libraries that cut future development time by 60%.
- Built responsive layouts that function seamlessly across desktop, tablet, and mobile devices.
- Partnered with designers and developers to translate business requirements into functional, user-friendly interfaces for 8+ projects, including reliantsurveyors.com, houzzhunt.com, the NBF valuation portal, and the Valunxt CRM/proposal/beta platforms.
- Optimized images, graphics, and code, improving page load time by 35%.
- Identified and resolved 50+ bugs and cross-browser compatibility issues, improving release stability.
- Implemented SEO best practices (semantic HTML, optimized metadata) to improve search visibility.
- Built interactive features using JavaScript, jQuery, and React.js to increase user engagement.
- Maintained documentation for codebases, reusable components, and design systems for the team.
- Ran usability testing cycles to gather feedback and refine designs before release.

Trine Education Ventures Private Limited | Nehru Place, New Delhi **May 2023 – Aug 2024**
Frontend Developer

- Designed and implemented new user-facing features and reusable, efficient code libraries.
- Ensured responsive, technically feasible UI/UX designs across all devices and screen sizes.
- Collaborated with designers, developers, and stakeholders to translate requirements into user-friendly interfaces.
- Built responsive, cross-browser-compatible web and mobile applications using HTML, CSS, and JavaScript.
- Optimized images, graphics, and assets, improving load speed by 30% without compromising quality.
- Debugged and resolved performance bottlenecks and cross-browser inconsistencies in a timely manner.

Gventure Technologies Pvt Ltd | Noida Sector 68, Uttar Pradesh *UI Designer / Web Designer* **Feb 2022 – May 2023**

- Conceptualized design ideas and strategies aligned with client requirements and project goals.
- Established design guidelines, standards, and best practices used across 6+ projects, including gventure.net, brandpaaji.com, and firchaletravels.com.
- Developed modern, responsive user interfaces with HTML5, CSS3, JavaScript, and Angular 2+.
- Collaborated closely with developers to implement designs accurately and validate functionality.
- Conducted usability testing to gather feedback and refine designs.
- Implemented techniques to improve website loading speed and performance while maintaining design quality.
- Managed design versions using SVN, collaborating effectively with the development team.
- Built and maintained a library of reusable design assets and components for consistency across projects.
- Researched emerging design trends and technologies to bring innovative features to projects.

N2R Technologies | Noida Sector 7, Uttar Pradesh *Web Designer Intern* **Aug 2021 – Jan 2022**

- Worked under the guidance of experienced designers and developers, contributing to 3+ projects.
- Collaborated with a team of professionals to design website layouts, graphics, and interactive elements.
- Applied HTML, CSS, and Adobe Creative Suite to turn concepts into high-quality designs.
- Contributed ideas to enhance user experience and overall visual design.

PROJECTS

- reliantsurveyors.com — Corporate site for a RICS-regulated property valuation & advisory firm (Dubai); built service/sector pages, market-report listings, and lead-capture forms.
- houzzhunt.com — Luxury real estate portal for Dubai property buy/rent/off-plan listings; built responsive listing pages, service sections, and enquiry/CV-submission forms.
- gventure.net — Corporate site for a VoIP/telecom & IT services company; built dynamic service showcases, testimonials, and multi-section landing pages.
- ranthamboretigerreserve.in — Travel site for Ranthambore National Park tiger safaris; built safari package pages and booking/enquiry forms.
- alfabetaedu.in — Study-abroad consultancy site with country-specific landing pages (UK, Canada, Australia, etc.); built appointment-booking and enquiry forms.
- admissionlelo.in — College admission portal with searchable course/college directories; built dynamic listing pages and counselling-request forms.
- admissionlelointernational.com — International arm of admissionlelo.in for students applying abroad; built country-specific program listings and enquiry forms.

CMS-BASED PLATFORMS

- nbfportal.reliantsurveyors.com — Internal Bulk Valuation Report Generation Portal; built the interface for generating dynamic valuation PDF reports at scale using DOMPDF.
- crm.valunxt.com — Internal CRM portal for the Reliant/Valunxt group; built custom PHP CMS interfaces for client and lead management.
- proposal.valunxt.com — Reliant Proposal Management Portal; built dashboard views for lead tracking, payments/collections, and real-time pipeline analytics.
- beta.valunxt.com — Dubai real estate market-intelligence dashboard; built data-driven UI for valuation, research, and analytics modules.
- brandpaaji.com — Digital marketing agency website; built service and branding pages showcasing web, social media, and SEO offerings.
- firchaletravels.com — Travel agency site for India & international tour packages; built package listing pages, WhatsApp enquiry integration, and booking forms.
- valunxt.com — Corporate site for a Dubai accounting, tax & valuation advisory firm; built services mega-menu, industry pages, and consultation-booking forms.
